

**In the Specification:**

Please replace the paragraph (Table 1) beginning at page 8, line 2, with the following (see attached sheet, Table 1):

Please replace the paragraph (Table 2) beginning at page 10, line 2, with the following (see attached sheets, Table 2):

Please replace the paragraph (Table 3) beginning at page 13, line 2, with the following (see attached sheet, Table 3):

Please replace the paragraph (Table 4) beginning at page 14, line 1, with the following (see attached sheet, Table 4):

Please insert the accompanying paper copy of the Sequence Listing, page numbers 1 to 12, at the end of the application.

**REMARKS**

Justification for amending the sequence on page 12, lines 4 through 10, may be found in the Specification in Table 2, on page 10, line 4, where the "GenBank/EMBL accession number M60286" is given for "herpesvirus Saimiri open reading frame ORF13" nucleic acid and amino acid sequences. A copy of the print-out for this accession number entry is enclosed for the Examiner's convenience. Inspection of the GenBank entry shows the correct sequence for the polypeptide inserted (SEQ ID NO:4) (ORF2), which is a translation of nucleotide positions 1574 through 2026 of SEQ ID NO:3 found on pages 10 and 11. This corrected SEQ ID NO:4 has also been inserted into the appropriate location in the Substitute Sequence Listing submitted herewith. Thus this amendment contains no new matter.
